Abstract:

The purpose of the abstract is to define and describe the study. The abstract should include a description of the boundaries of the research, the method of analysis, and a summary of the major conclusions. The presentation of the information in the abstract follows the organization of the original dissertation or thesis. The **word-count limitation is 250 for theses and 500 for dissertations**. Include abstract with this form. Tag the abstract with the author's name at the top

NOTE: Submission grants permission to publish abstract materials ...
